**Email**: jasminetolu74@gmail.com

## PROFESSIONAL SUMMARY

Highly motivated and results-driven Junior Frontend Developer with 6+ months of hands-on experience specializing in building responsive, high-performance web applications using React and modern JavaScript (ES6+). Skilled in integrating complex APIs — including Web3, Dialogflow, and RESTful endpoints — to deliver intuitive and impactful user experiences. Passionate about creating visually appealing interfaces that combine clean design, seamless interactivity, and strong performance. Seeking an opportunity to contribute technical creativity and precision to a forward-thinking development team.

## CORE TECHNICAL SKILLS

| Frontend Development | Languages / APIs | Tools & Workflow |
|---|---|---|
| React (Hooks, Components, State Management) | JavaScript (ES6+) | Git / GitHub (Version Control) |
| Tailwind CSS | RESTful APIs | Responsive Design |
| HTML5, CSS3 | Web3 / Ethers.js / MetaMask | Vite (Build Tool) |
| UI/UX Principles | Dialogflow API Integration | VS Code, Command Line |

## FEATURED PROJECTS

*Crypto Wallet Balance Checker (React, Web3, MetaMask API)*
Built a secure interface that connects with MetaMask to fetch and display Ethereum (ETH) wallet balances. Implemented robust error handling, async/await logic, and real-time UI updates. Key Achievement: Developed a fully client-side Web3 integration with precise state synchronization and no backend dependency.

*Conference Ticket Generator (React, Custom Hooks, Client-Side Image Generation)*
Created a utility app that processes user input to generate downloadable custom event tickets (image/PDF). Built reusable logic with custom React hooks for form state and rendering efficiency. Key Achievement: Engineered a purely client-side image generation approach, eliminating backend costs and improving performance.

*Anti-Bullying Chatbot (Dialogflow API, HTML, CSS)*

Designed and styled a responsive chat interface connected to Dialogflow API for natural language responses. Focused on accessibility, empathy, and simplicity to enhance user experience. Key Achievement: Presented as a social innovation project, blending technical implementation with emotional design.

## EDUCATION & TRAINING
Bachelor of Science in Computer Science (In Progress)
Ladoke Akintola University of Technology — Start Date: October 2025

Frontend Development Certification (Expected: December 2025)
Kwaratech Academy
Focus Areas: React, Modern JavaScript, UI/UX, Team Collaboration, and Project-Based Learning.

Relevant Online Coursework freeCodeCamp: 5-hour React Course, 8-hour JavaScript ES6+ Essentials

## RELEVANT EXPERIENCE

### Intern Facilitator | Kwaratech Academy | August 2025
- Mentored and guided secondary school students through hands-on coding projects.
- Simplified complex programming concepts with practical examples.
- Demonstrated leadership, communication, and mentorship skills.

### Project Presenter | STEAM AI Event | July 2025
- Presented the Anti-Bullying Chatbot project to educators, developers, and students.
- Explained Dialogflow integration, UI design, and real-world applications.
- Recognized for clarity, presentation skills, and technical confidence.

## ADDITIONAL DETAILS

- *Availability*: Open to remote junior frontend roles.
- *Soft Skills*: Communication, Problem-Solving, Collaboration, Attention to Detail.
- *Career Goal*: Aiming to excel as a Fullstack Engineer, developing dynamic interfaces with React, robust backends with Node.js and Express, and efficient data solutions using MongoDB and SQL.
